The purpose of the role is to manage, supervise, document and inspect Council projects. The role involves preconstruction activities, including survey, design and documentation for all asset classes, supporting duties to engineering, town planning, water and sewerage, health. The Project Engineer assists with project management of preconstruction and project delivery phases of capital projects to ensure desired project outcomes are achieved in accordance with Statutory Regulations, Council Policy, and objectives.

The successful applicant will have:

- Bachelor of Engineering (Civil) or Associate Degree in Civil Engineering (or equivalent) with substantial experience in project management is essential;
- Eligible to be a member of the Institution of Engineers Australia is essential.
- Possession of a current WH&S Construction White Card is essential; and
- Current "C" class manual Driver's Licence or ability to acquire a licence prior to commencing in the role.
- High level of confidentiality and ability to exercise discretion in a professional manner essential;
- Strong negotiation and interpersonal communication skills with a high level of customer service aptitude;
- High level of communication and report writing ability;
- A team approach and the ability to effectively operate in a multi-faceted unit
- Self-motivated with strong time management, problem solving and decision making abilities;
- Analytical and practical problem solving skills and risk management awareness to facilitate ready interpretation of outputs and recommendations;
- Demonstrated knowledge of budgetary matters;
- Competence and knowledge in the use of design methods, design software, project management systems, tenders and contracts, asset management systems, data collection and monitoring programs;
- Ability to gain an understanding of Local Government legislative requirements, policies and procedures
- Knowledge of relevant legislation, codes and guidelines relating to design and delivery of infrastructure;
- Possess an aptitude for gaining experience in the design, documentation, procurement, project management and construction of infrastructure projects;
- Sound level of computer literacy with a preferred knowledge of MS Office software package, AutoCAD, MapInfo or similar;
- Practical experience and detailed knowledge of infrastructure design and project delivery functions and associated service delivery programs to achieve nominated Levels of Service.

You are required to provide written responses to the Key Selection Criteria which is located in the back of the position description.

The benefits of working for Local Government:

Council offers excellent working conditions, generous superannuation benefits (up to 12%); minimum 36.25 hour working week with Council's flexitime agreement and 5 weeks annual leave.
