PLANNING SERVICES		
Cost Recovery Fees - The fees outlined below are Cost Recovery Fees in accordance with the <i>Local Government Act 2009</i> & the <i>Planning Act 2016</i> . Where Council has not utilised the full amount of a development application fee, the remaining amount will be refunded to the applicant within 30 business days of issuing the Decision Notice/Negotiated Decision Notice for an application. Where there is a delay in providing a refund within the 30 business days, a notice stipulating the new expected refund date will be issued to the applicant by Council before the end of the 30 business day period.		
Assessment of Technical Components - Where Council receives an application which requires the assessment of technical components & Council does not have the internal expertise to assess the technical components of the application, the application will incur an assessment fee of \$20,000.00 per technical component. This fee will be utilised by Council to engage an external specialist consultant to assist in the assessment of the application. Where the actual amount of the consultant's fee is greater or less than the \$20,000.00 fee, Council will refund any excess amount to the applicant, or as the case requires, the applicant is required to pay any shortfalls to Council within the invoice period specified. The technical components will be determined by Council on an individual application basis.		
Mixed use developments - An application involving mixed use developments where all proposed uses are Code Assessable development shall have the primary use fee applied PLUS 50% for each type of other use proposed. Please note this is only applicable to uses located on the same allotment. An example of mixed use development would be a Material Change of Use for a multiple storey residential apartment block with a ground floor commercial component. In this example, the multiple storey residential apartment block is the primary use. The fee payable would therefore be 100% of the application fee for the residential development PLUS 50% of the application fee applicable for the commercial development.		
Combined Applications - Applications lodged at the same time which involves more than one development type will incur the full amount of fees payable for each development type included in an application. An example of a combined application is a Material Change of Use application & Reconfiguration of Lot application submitted at the same time over the same parcel. In this instance, 100% of the Material Change of Use fee & 100% of the Reconfiguration of a Lot fee would be applicable to the development.		
Development in Existing Buildings - An application for a Code Assessable Material Change of Use in an existing building where no external works is proposed or required, the application fee applicable for the development will be entitled to a reduction of 25% of the applicable 100% development application fee. If the proposed development is part of a mixed use development, this will not be an eligible discount.		
Refund of Application Fees - No refund will be given in the event of a refusal of an application, or if an applicant decides not to proceed after Council has decided the application.		
A formal withdrawal of an application for Material Change of Use, Reconfiguration of a Lot or Operational Works will attract the following refunds based on what stage of DA Rules the application is in at the time of withdrawal:		
Part 1 - Application (80%)		
Part 2 - Information & Part 3 - Referral (55%)		
Part 4 - Public Notification (40%)		
Part 5 - Decision (Prior to assessment report being tabled at the Council Informal Briefing Session / Ordinary meeting - (20%))
